

PRITAM MONDAL

MERN Stack Developer | Full Stack Developer

Basirhat, Kolkata, West Bengal | +91 7810866098 | itspritam133@gmail.com

Github: github.com/pritammondal-dev | LinkedIn: [linkedin.com/in/pritam-mondal-dev](https://www.linkedin.com/in/pritam-mondal-dev) | Portfolio: pritam-portfolio-beryl.vercel.app

PROFESSIONAL SUMMARY

Final-year BCA student and MERN Stack Developer skilled in building full-stack web applications with React.js, Node.js, Express.js, and MongoDB/MySQL. Experienced in designing REST APIs, implementing JWT-based authentication, and developing responsive, production-ready UIs. Proficient in database design, API integration, Git/GitHub workflows, and deploying applications on Vercel and Render. Quick learner seeking a Software Engineer / MERN Stack Developer role to apply strong problem-solving and full-stack development skills.

EDUCATION

Bachelor of Computer Applications (BCA) — Final Year

Swami Vivekananda Institute of Modern Studies | Expected Graduation: 2027

Relevant Coursework: Data Structures, DBMS, Operating Systems, Computer Networks, Software Engineering, OOP, Web Development

TECHNICAL SKILLS

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, React Router, Responsive Design, State Management
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, Role-based Authorization, Socket.IO
- **Database:** MongoDB, MySQL, Mongoose, Schema Design
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, Vercel, Render
- **Other:** CRUD Operations, Authentication & Authorization, API Integration, Deployment, Agile Development, Problem Solving

PROJECTS

NeuroVault | MERN Stack | JWT Auth, Email Verification, MongoDB, REST APIs | Deployed on Render

- Engineered a full-stack notes/document management application using React.js, Node.js, Express.js, and MongoDB with a modular, scalable architecture.
- Implemented secure JWT-based authentication with email verification and protected routes to safeguard user sessions and data access.
- Built RESTful CRUD APIs for document management, deployed on Render with a responsive UI optimized for mobile and desktop.
- Live Demo: <https://neuro-vault-liard.vercel.app> | Github Repo : <https://github.com/pritammondal-dev/NeuroVault>

Portfolio Website | React.js | Responsive UI, Vercel

- Developed a responsive personal portfolio using React.js with smooth animations, a project showcase, contact form, and resume download.
- Deployed the site on Vercel for fast, reliable global access.
- Portfolio link: <https://pritam-portfolio-beryl.vercel.app> | Github Repo : <https://github.com/pritammondal-dev/Pritam-Portfolio>

AuraVue E-Commerce Platform | MERN Stack | Authentication, MongoDB, REST APIs

- Developed a full-stack e-commerce platform with product listing, product management, and user authentication using the MERN stack.
- Designed REST APIs for CRUD operations on products and users, with request validation and centralized error handling to ensure data integrity.
- Built a responsive, mobile-friendly UI in React.js for seamless browsing and product management across devices.

Real-Time Chat Application | MERN Stack | Socket.IO, MongoDB, Authentication

- Built a real-time messaging application using Socket.IO for low-latency, bidirectional communication between users.
- Implemented user authentication and persisted chat history in MongoDB for reliable message retrieval across sessions.
- Structured the backend with Express.js and Node.js to handle concurrent socket connections efficiently.

Student Management API | Node.js, Express.js, MySQL | REST APIs, MVC Architecture

- Built a RESTful backend API using Express.js and MySQL following MVC architecture for managing student records.
- Designed relational database schemas and implemented CRUD endpoints for student data management.
- Tested and validated all API endpoints using Postman to ensure reliability and correct response handling.

ACHIEVEMENTS

- Built and deployed multiple full-stack MERN applications from design through production deployment.
- Hands-on experience with Git-based collaborative workflows and deploying applications using Vercel and Render.

CERTIFICATIONS

- **Frontend Development (HTML, CSS, JavaScript)** — Internship, 2025–2026
- **MERN Stack Development + Generative AI** — In Progress
